

## The Mini LynxLoc™

The Mini LynxLoc™ is available with 1, 2 or 3-Alarm functionality. It's an effective solution for garment and accessory protection. The Mini LynxLoc™ 2-alarm will alarm if the cable is cut, and set off the EAS alarm on attempted exit, while the 3-alarm will also self-alarm if it passes the EAS. Its small size gives the flexibility to use for more compact items such as shoes and clutch bags, and the LED warning light is visible from both sides.

### Features

- Compatible with magnetic detachers
- Small and compact design
- High detection rate
- Blunt pin for safety
- Coaxial lanyard prevents shorting defeat
- Battery saving feature when not engaged
- Long lasting lithium battery
- 5 minute alarm stop time
- Available in AM or RF technology
