

Swift and safe tagging solution for your colleagues and customers

The new SlideTag 1S™ boasts **one second** application and **one second** removal, making it the fastest security tag on the market. Quick and easy to use in the DC, shop floor, or back of house environment. Ideal for children's clothing, where safety is of the highest importance. Combining speed, safety and security, this advanced one-piece solution works for all applications.

The sprung hinge marks an improvement on the original SlideTag design, allowing the 1S to fit even thicker fabrics with an even quicker application time. The SlideTag 1S™ is ideal for source tagging and in store tagging. This advanced tag simply slides on to the garment and a press of the plunger secures the integrated retractable smooth pin instantly. The pin locks in place inside the magnetic clutch, making the SlideTag 1S a very secure solution.

Features & Benefits

- One-piece design, with concealed spring loaded pin
- Opening has contoured lip for smoother application
- Needle sharp, self-retracting pin minimises fabric damage
- Sprung hinge allows 1S to fit on thicker fabrics than original SlideTag, while also making it even quicker to apply and remove

- Other colours available
- Rapid application and removal
- Releases with Superlock or Hyperlock detachers
- Larger aperture for thicker materials
- Available in AM or RF
- Small, compact design
- No tag/pin sorting required

SlideTag 1S™
