

The SlideTag™

The SlideTag™ is a rapid application tag for source tagging and in store tagging; a one piece tag with integrated safety retractable pin which is simply slid onto the garment, and the plunger depressed to secure. Press the plunger and the item is protected! Quick and easy to use whether in the manufacturing, DC or back of house, environment. Available with a transparent pin housing for greater precision of application – ideal for items like children’s wear, when safety is of the highest importance.

Features

- One-piece solution
- EAS functionality
- Rapid application
- Neat and compact design
- Available in AM or RF with options for RFID
- Concealed sprung, smooth pin
- Standard version compatible with Superlock magnetic detachers
